

Addresses of
Descendants of
Josh. Moulton
Pioneer to
Provo Valley.

2 June 1962

Our dear family:

Thomas Moulton was a Mormon pioneer of 1856. He had 10 children who had offspring. You are a descendant of one of those children.

A group of us have been working since last November--attempting to locate all of the families descended from Thomas Moulton. So far, we have found about 750 different families.

The attached list contains the names and addresses of those families on your particular line--only.

Would you kindly analyze this list carefully. You will note that each later generation is indented further to the right. Brothers and sisters are in the same column--listed to the right of the mother or father who came through the Moulton line. Your father or mother, in turn, would be listed to the right of their parent on the Moulton line, and would be in the same column as his or her brothers and sisters.

There are very probably omissions and errors. (Some lines are much more complete than others). (Our original estimate of 1,000 families probably isn't a long ways off). We would appreciate your making any corrections or additions. PLEASE!! We've spent many many hours on this. We do need your cooperation. Make the corrections or additions on this same sheet, or use an exactly similar form and send them to us. Please DO NOT send notes such as "Uncle so and so has a boy living in California". You have the lead on this, and can probably get to the facts sooner than we can.

Now, in the matter of non-dependent children. If they are far enough along that they are supporting themselves, (even though they may not be married), we would like them to be shown as a separate family.

A little bit about our purposes and objectives:

We want to develop a program in our family which will strengthen our family and which will make it possible for us to proceed rapidly with our genealogical work, with economy and without unnecessary duplication of effort. Genealogical work is basic, and we will want your support.

Verda Hicken prepared, and two of the Carroll brothers lithographed an 18 page history of the Thomas Moulton family. We have been selling this for \$1, and it has provided most of our funds to date. There are about 30 copies left.

Wayne Carroll and his son Wallace have prepared a pedigree sheet which shows our exact position in our research program. On the first line of this sheet they have shown the children of Thomas Moulton, and then they have gone back as far as possible on each line. This, as well as the basic group sheet will be published at a future date.

Would you kindly set yourself a goal for returning this information. After receiving this information, we hope to publish the complete list (now--some 15 pages) to every person on the list. We can't help but think that such a list will help children to realize the importance of their heritage.

We're to the bottom of the sheet. -- With kindest regards -- and address correspondence to Heber Moulton, 6829 South 500 West, Bountiful, Utah
